

New Edison Unit Now Operating

First unit of Southern California Edison company's El Segundo steam-electric generating station was officially put into operation May 25, during a special dedication ceremony held at the plant. Following the unveiling of a permanent marker plaque, A. N. Kemp, Edison company director, went to the plant control room where he opened the throttle to put the giant 160,000 kilowatt generating unit into full commercial operation.

a tour of the adjoining Standard Oil company of California plant and luncheon, was attended by civic dignitaries including Mayor W. R. Selby of El Segundo and Supervisor Burton W. Chace of the Los Angeles County Board of Supervisors. Among the Edison company officials present for the ceremonies were Harold Quinton, president; J. F. Davenport, vice-president and general manager; W. L. Chadwick, vice-president, and G. L. Blanchard, district manager.

Mrs. Victor Benstead, president of the Torrance Terrace Garden club, and club members Mesdames J. Parks Montague and John H. Ericson, were judges at the annual flower show held at Narbonne high school last week.

I'm delighted with the quick response I get out of my Dodge using entirely new grade Mobilgas

Nine out of ten drivers of pre-1955 Dodges and many other cars get smoothest, knock-free mileage with new grade Mobilgas which sells in the price range of regular. Look for this sign.
